TAHA ABBASI

FRONTEND DEVELOPER

https://github.com/Sardar-Taha I dev.sardartaha@gmail.com I https://dev-taha.vercel.app

As a Frontend Engineer with two years of experience, I specialize in crafting high-performance web applications using HTML, JavaScript, React JS, Next JS and CSS frameworks like Bootstrap, Antd, MUI and Tailwind. With a proven ability to manage complex projects, I have successfully delivered over 100 frontend projects, ensuring seamless integration and high-quality user experiences. I build clean and accurate user interfaces and connect them with backend systems. I work well with product, design, and engineering teams to create useful and easy-to-use websites and apps. I'm always looking for ways to improve my work and make things better and faster.

AREA OF EXPERTISE

- HTML / CSS
- JavaScript
- React.js / Next.js
- Frontend Development
- TypeScript
- Optimization

KEY ACHIEVEMENTS

- Contributed to **100+ projects**, ensuring their effective completion and alignment with organizational goals.
- Improved code quality and reduced bugs by **20%** through better coding practices.
- Implemented streamlined processes that resulted in **10%** reduction in project delivery time, enhancing team efficiency and overall productivity.
- Focused on improving my coding skills, which led to fewer bugs and better overall code quality in the projects I worked on.

PROFESSIONAL EXPERIENCE

Front End - Build My Dapp PVT   **March 2024 - Present**

- Contributed to frontend development using React JS, ensuring features were delivered on time and met project standards.
- Worked closely with product and design teams to turn ideas into responsive and user-friendly interfaces.
- Helped build and improve features across web applications, focusing on performance and usability.
- Followed clean coding practices to improve code quality and reduce bugs in day-to-day development.
- Adapted quickly to project needs by learning new tools and frameworks, ensuring smooth development processes.

Frontend Developer - ZySoftec   **July 2023 - March 2024**

- Played a key role in developing user-friendly web applications, working primarily with React JS, Next JS and CSS to ensure responsiveness and performance.
- Supported senior developers in troubleshooting JavaScript and HTML/CSS issues, gaining hands-on experience in debugging and code optimization.
- Translated UI/UX design mockups into functional web interfaces, ensuring visual consistency and cross-browser compatibility.
- Actively participated in team discussions, contributing insights and learning through pair-programming and feedback sessions to improve skill sets.
